Entone HydraII Advanced Setting for Channel Changing with TiVo IR Control

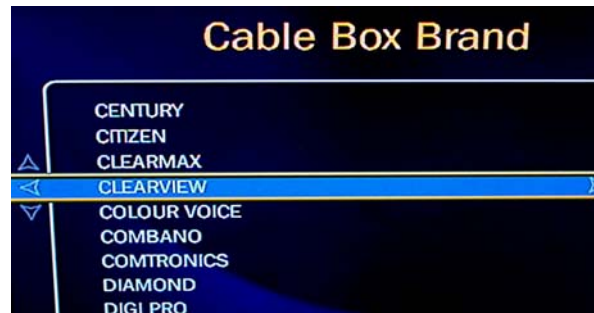

Step 1 Go to the **Channel Changing** screen. From TiVo Central; select **Messages & Setting > Setting > Channels > Channel Changing**.

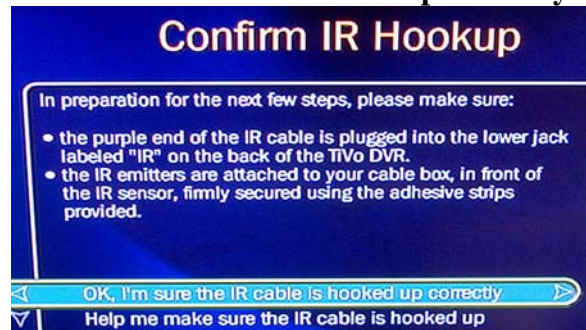

Step 2 Select **No, I've switched to a different cable box**.

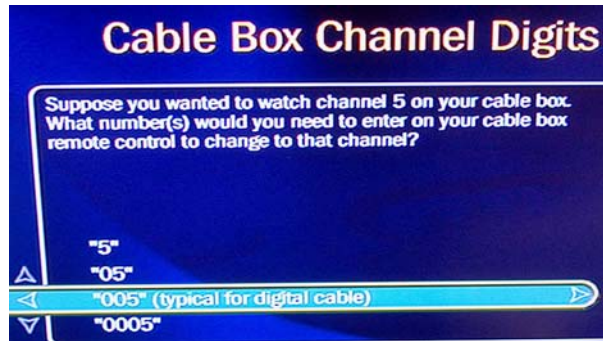

Step 3 Select **CLEARVIEW**

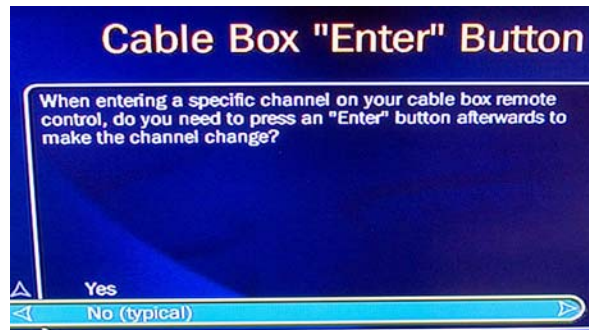

Step 4 Make sure the IR cable is connected properly (please refer to the Tivo's documentation for proper connections) and select **OK, I'm sure the IR cable is hooked up correctly**.

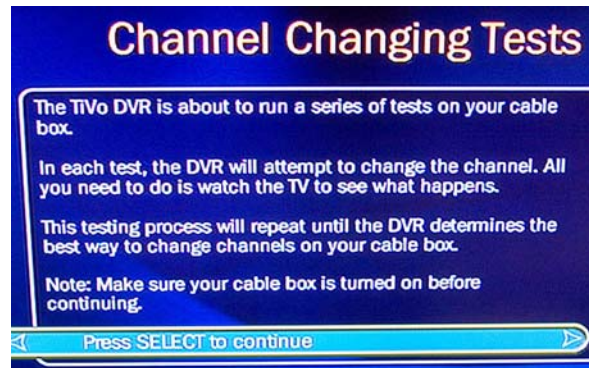

Step 5 Select "005" (typical for digital cable)

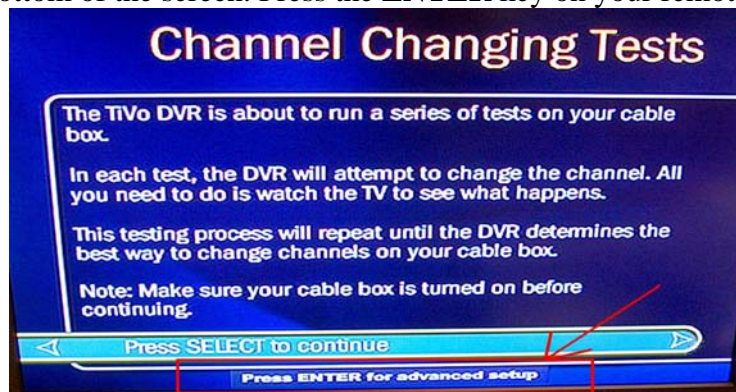

Step 6 Select **NO (typical)** for “Enter” Button.

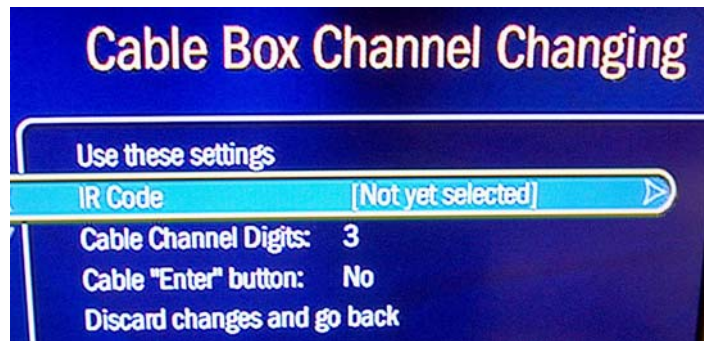

Step 7 On your TiVo remote, press the following keys in order: **THUMBS UP > THUMBS DOWN > PAUSE > PLAY**
 * You should hear 5 rings when enter the key sequence above. If you do not hear the rings, enter the code again.

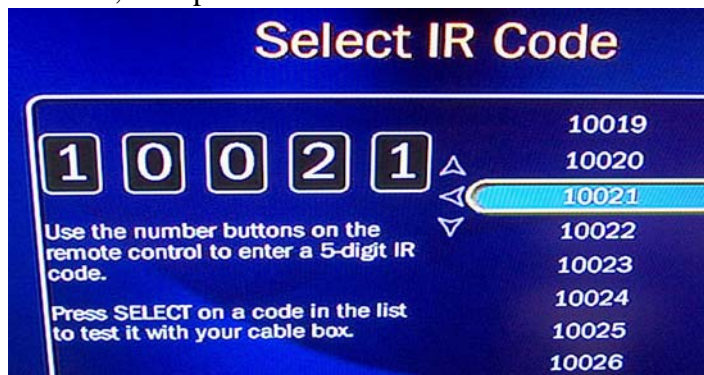

Step 8 On the Channel Changing Tests screen, you should now see the phrase “Press **ENTER** for advanced setup” at the bottom of the screen. Press the **ENTER** key on your remote.

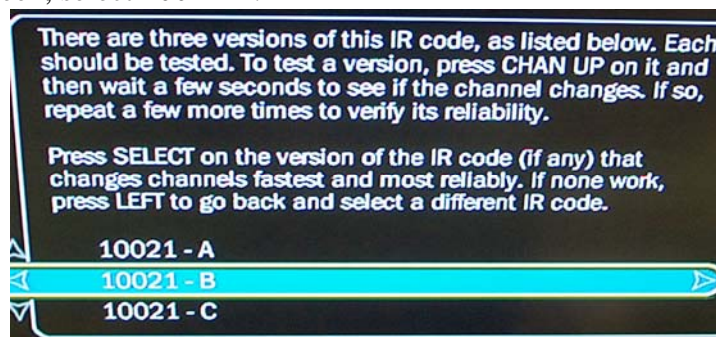

Step 9 You will now see the **Cable Channel Changing Advanced Setup** screen. Highlight **IR Code** and press **SELECT**.

Step 10 Enter **10021** for IR Code, then press SELECT.

Step 11 On the next screen, select **10021-B**.

Step 12 Once you have selected a code, select **Use these settings**. You should now be able to change channels using IR control.
